

List of Required On-Site Interview Groups 2014 - 2015

The comprehensive school improvement site visit process provides the opportunity to gather input from key stakeholder groups. This document lists the groups required and outlines the expectations for individuals participating in the interviews.

As a schedule is created, it is important for the district/school to work with the school improvement consultant leading the visit in order to ensure all groups are represented.

It is also important that the final schedule include the location where each interview will be held. ***The names of the persons to be interviewed could be included on the schedule or provided to the team leader on a separate list.***

If possible, it is advantageous for interviews to be conducted somewhere other than the team workroom. This allows some team members to work on document review while others are conducting interviews. The site visit team leader will work with the district/school as it develops the schedule for the site visit.

In developing the site visit schedule, the groups and individuals listed are required to have separate interviews of sixty (60) to seventy-five (75) minutes unless otherwise stated. Team members will facilitate introductions and explain the purpose of the visit at the beginning of each interview session.

WHEN SCHEDULING INDIVIDUALS FOR INTERVIEWS, PLEASE ADHERE TO THE FOLLOWING:

- The district/school is expected to avoid scheduling individuals for more than one interview without consultation with the site visit team leader.
- When establishing interview groups, avoid including spouses of employees, other relatives, or children of employees or school board members.
- When scheduling students in interviews, districts/schools should avoid selecting students who are children of teachers, administrators, school board members, or other district/school employees.
- When establishing interview groups made up of district/school staff, do not place supervisors in the same interview group with persons whom they supervise.
- Interview groups should have balanced representation of gender and include teachers of diverse racial/ethnic backgrounds when the opportunity makes it possible.
